SUMMARY

I'm an aspiring UI/UX designer with a passion for crafting intuitive and user-centered designs. With a strong blend of problem-solving abilities and creative thinking, I strive to deliver solutions that not only meet business goals but also create meaningful experiences for users. While UI/UX design is my professional focus, graphic design remains my true passion, fueling my creativity and attention to detail. I am eager to join a forward-thinking design team where I can apply my skills, grow as a designer, and contribute to building seamless and engaging user experiences.
